another! This is how time energy + stationery are pilfered away. // Unless and until the copies are required by the Monsoons it will not be possible for the Govt Press to turn them out at less cost than these forms are by some private firms especially as are well known & till accordingly will not do for the Govt Press to print the diaries & are kept only. If the form is standardised & requisitions received from all departments consolidated & placed with the Press it may be possible for the Press to execute the work without additional cost to Govt: Unless these conditions are fulfilled I begin with it is futile to expect the Press to progress. I quite see the desirability of supplying a standard typed diary printed at the Govt Press, to all Govt departments as in Madras. But the conditions precedent to the fulfilment first // All heads of departments may be addressed in the matter forthwith requested to send in their replies before the 15th Prox.

I have minuted on the Revenue file & returned it also. As the diary has to be standardised it will have to be of a very general type so that it may be of use to as many departments as possible. Certain departments require special provisions to be made to meet their special requirements. & these cannot be possibly met by prescribing a standardised diary

ROUTINE NOTES.

[To be used only for notes, requisitions, etc., not intended for permanent record.]

The number of copies of Gazette distributed among officers of the State is about 700. The number of diaries required will be about the same if diaries are supplied to all the officers to whom the Gazette is sent.

With reference to the observations made by the Extra Member in para 6 of P & S file No. 46-18, it is submitted that since no replies have been received from some Heads of Departments it is not possible to state the probable number that may be required.

As regards the piece-meal way in which this file was submitted, it is respectfully submitted that replies were called for so as to reach this office before the 15th instant and the few that had been received till the 18th instant were submitted for orders. A few others were received later and they were also submitted as the question was still engaging the attention of the Member. The present file which contained some valuable suggestions of the Financial Secretary was submitted before the original file had been returned to the branch with the Member's orders.

In returning herewith the sample diary received with your letter No.C.4452, dated the 31st August, I have the honour to state that I find, on estimating the cost for 250 copies of the diary required by you, that it is cheaper to buy the diaries at 12 annas a copy because the cost of a diary, if printed newly in the Government Press, comes to Rs.1-6-0.

Messrs. Perumall Chetty & Sons., print thousands of these diaries and therefore the cost comes cheaper than when only a limited number of copies are printed.

FROM

B. JAYARAM, Esq., F.G.S.,
Offg. Director, Department of Geology,
Mysore State.

RECEIVED 2 JUL 1918

To

C.S. Balasundaram Iyer, Esq., B.A.,
Chief Secretary to the Government of
H.H. the Maharaja of Mysore, Bangalore.

SIR,

With reference to your letter No.7748-7807, dated the 29th October 1918, regarding the preparation of a standardised diary to be supplied to all departments, I have the honor to state that it appears to me very desirable that this Department should be provided with printed copies of the general diary.

2. The supply of this diary should, however, be in addition to the field note book of the refill type required by the field officers of this department. This special note book can be provided to the field officers departmentally and is suited only for the special kind of work they do. The general diary now proposed to be supplied would form an useful adjunct for recording general matters and can be used generally by all officers in the Department.

3. The size of the general diary may be 5 in. x 7 in. or 5¼ in. x 8.1/8 in. bound with stiff cover and calico for the back, like Messrs. Hoe & Cos. No.3 Colonial Diary.

4. With regard to the form of the diary, I think it would be sufficient if each page contains the name of the month, date and week day, together with information wherever necessary in regard to

the

the public holidays. A few headings may also be provided in each page, as follows:-

(a) Matter for attention.

(b) Matters which received attention.

(c) Interviews.

(d) ~~Particulars of~~ Journeys, if any.

5. With regard to the additional matter which may be incorporated in the general diary, I would suggest that, besides the usual information generally contained in private diaries, notes and tables including scientific and technical information, which will be useful for reference in connection with the work of the several departments, may be put in. I enclose herein notes of certain matters, which I should like to be inserted in respect of this Department.

6. The number of copies that may be required for the Department is about 25.

I have the honor to be,

Sir,

Your most obedient servant,

B. Jayaram

Offg. Director,

Department of Geology.

SIR,

I have the honor to acknowledge the receipt of your Circular letter No. G. 7748-7807 dated 29th October 1918 calling for proposals in the matter of printing a Standardised Diary for being used by the officers of all Departments of the State. As the dairy will have to be carried by the officer wherever he goes, its size may be that of an ordinary rocket Diary. The entries to be made by the officers of this Department in the Diary will consist mainly of notes of itineration in the case of touring officers and of important points of which it may be considered necessary to take note for rememberance or future guidance in the case of other officers generally. For this purpose, no separate columns or headings are necessary and the pages in the diary may be left blank with the day, date and the year printed on each. It would be convenient if a few pages are set apart for noting engagements such as meetings to be attended, special inspections to be made, &c. Each page for noting engagements may consist of three or four parts, one for each day. This will condense the number of pages set apart for engage - ments.
